

Data Trust Committee - Quarterly report (Aug 2022 – Oct 2022)

The purpose of the quarterly report is to ensure transparency of Data Trust Committee processes and to highlight the impact that the committee's input has on PIONEERs work.

Toplines:

Number of meetings	4
Number of requests reviewed	5
Total number of requests approved	5
Tot number of requests not approved	0
Number approved with conditions*	0
Number approved after amends* requested	1
Number of approved with data licence pending*	0

* Included within the total number of requests approved.

Projects approved (note projects are not reviewed in numerical order):

PDR062 - Bartington (University of Birmingham) – Impacts of a Clean Air Zone intervention upon air quality and acute asthma.

PDR063 - Witham (Newcastle University) – An ADMISSION Project

PDR064 – Green (University Hospitals Birmingham) – Developing AI for clinical antimicrobial stewardship

PDR060 - Fang Gao (University of Birmingham) – Social, economic, weather related factors on admissions/outcomes of patients admitted to Acute Care with/without Cov-2 infection

PDR065 – Winzor (University Hospitals Birmingham) – Investigating the incidence, risk factors and source of hospital acquired bacteraemia and candidaemia in ventilated COVID 19 patients

*PDR060 – Reviewed following amendments requested by the DTC at a previous meeting.

For each of the approved requests, a lay summary will be available on our website. Note, requests are not necessarily reviewed by the Data Trust Committee in numerical order but based upon an evaluation of priorities.

Other Updates:

- Following a recruitment campaign we had during the reporting period 3 new members joined the Data Trust Committee.
