

Data Trust Committee - Quarterly report (Aug 2023 – Oct 2023)

The purpose of the quarterly report is to ensure transparency of Data Trust Committee processes and to highlight the impact that the committee's input has on PIONEER's work.

Toplines:

Number of meetings	2
Number of requests reviewed	3
Total number of requests approved	3
Total number of requests not approved	0
Number approved with conditions*	0
Number approved after amends* requested	0
Number of approved with data licence pending*	0

* Included within the total number of requests approved.

Projects approved (note projects are not reviewed in numerical order):

PDR078 – Goudie – DECOVID Data description paper

PDR079 – Witham – Patterns, pathways, causes and consequences of multiple long-term conditions in people admitted to hospital – an ADMISSION programme study.

PDR080 – Gallier - Longitudinal assessment of diagnoses and outcomes for chest pain presentations across ambulance and acute hospital services: a retrospective cohort study

For each of the approved requests, a lay summary will be available on our website.

Note, requests are not necessarily reviewed by the Data Trust Committee in numerical order but based upon an evaluation of priorities.

Other Updates:

- The PPIE Group were involved in an Ethics workshop along with PPIE members from our INSIGHT and PATHWAY data hubs. This is part of an ongoing series of discussions with PPIE members. The workshop obtained feedback from members on extending the ethical remit of the research database to potentially include unstructured clinical data, such as letters and reports.
