

Data Trust Committee - Quarterly report (May 2022 – July 2022)

The purpose of the quarterly report is to ensure transparency of Data Trust Committee processes and to highlight the impact that the committee's input has on PIONEERs work.

Toplines:

Number of meetings	4
Number of requests reviewed	4
Total number of requests approved	3
Tot number of requests not approved	1
Number approved with conditions*	0
Number approved after amends* requested	0
Number of approved with data licence pending*	0

* Included within the total number of requests approved.

Projects approved (note projects are not reviewed in numerical order):

- PDR058 - Atkin & Reddy (University of Birmingham) – Age adjusted D-Dimers
- PDR059 - Bangash (University Hospitals Birmingham) - Post discharge in critically ill patients with sepsis, burns/polytrauma and ARDS
- PDR060 - Fang Gao (University of Birmingham) – Social, economic, weather related factors on admissions/outcomes of patients admitted to Acute Care with/without Cov-2 infection
- PDR061 – Parekh (University Hospitals Birmingham) – Optimising severity scoring systems in critical care to improve clinical decisions making

For each of the approved requests, a lay summary will be available on our website. Note, requests are not necessarily reviewed by the Data Trust Committee in numerical order but based upon an evaluation of priorities.

Other Updates:

- Data Trust Committee (DTC) members were involved in a visit by Health Data Research UK (HDR-UK) to PIONEER's offices to discuss their involvement in PPIE.
- Members of the DTC were involved in a workshop which sought public and patient views, opinions and understanding on the use of 'federated analytics';

where the data stays put and analysis moves. FED-NET is funded by DARE, Innovate UK and is being led by PIONEER.
