

Data Trust Committee - Quarterly report (Nov 2022 – Jan 2023)

The purpose of the quarterly report is to ensure transparency of Data Trust Committee processes and to highlight the impact that the committee's input has on PIONEER's work.

Toplines:

Number of meetings	2
Number of requests reviewed	3
Total number of requests approved	3
Total number of requests not approved	0
Number approved with conditions*	0
Number approved after amends* requested	0
Number of approved with data licence pending*	0

* Included within the total number of requests approved.

Projects approved (note projects are not reviewed in numerical order):

PDR067 – Parekh (University of Birmingham): Risk Factors of Major Adverse Kidney Events among patients with ARDS.

PDR068 – Reddy-Kolanu (University Hospitals Birmingham): Evaluation of the effectiveness and safety of early rule out pathways for suspected Acute Myocardial Infarction across the United Kingdom.

PDR069 – Reddy-Kolanu (University Hospitals Birmingham): Exploring variations in acute hospital admissions and developing criteria to define an avoidable admission.

For each of the approved requests, a lay summary will be available on our website. Note, requests are not necessarily reviewed by the Data Trust Committee in numerical order but based upon an evaluation of priorities.

Other Updates:

- Following a successful recruitment campaign, the DTC had 2 new starters join as full voting members of the Data Trust Committee.
